Updates regarding COVID-19 and your community.

Hello LD,

You've all surely been following the news regarding increases in COVID-19 cases across the country, driven by the new variant that is proving more transmissible than the original virus. With government regulations continuously changing, please note that in order to keep our communities safe we **will not be entering units** at this time unless it is an emergency.

In an effort to keep residents safe, we will limit our in person office hours, and ask that you pay rent electronically. We also ask that you continue to submit your maintenance requests through the resident portal and we will triage requests based on priority.

Finally, as a reminder, our first and foremost priority and responsibility is to keep our communities healthy and safe. It is critical that you follow all necessary protocols and remind others if you see anyone not following guidelines.

- Keep your distance from neighbours and our team members at all times
- Always wear your mask when circulating within your community
- Use hand sanitizer and wash your hands frequently

We thank you as always for your cooperation and your patience.

Stay healthy,

David Nevins  
Chief Operating Officer  
CLV Group and InterRent REIT
