Improvements effective May 1, 2022 -VISITOR PARKING

Dear Valued Residents & Parking Guests,

We are committed to continuous improvements of our parking facilities and our goal is to make sure there is parking availability for all our residents and visitors, while we prevent the unauthorized use of parking spaces.

Please note that we will turn the rear outdoor "contractor parking spots" into visitor spots effective immediately.

To ensure that visitor parking is controlled and fairly used, CLV Group and Target Park would like to announce that as of May 1, 2022, Target Park will be providing complete parking lot monitoring and violation enforcement in coordination with our property management.

If you wish to park within the Visitor Parking spaces, please make sure to register at <https://tap2park.ca> and follow these easy steps to purchase a pass:

1. Input the 4-digit site code [4-digit code].
2. Enter your license plate number.
3. Select your desired length of stay.

Otherwise, if you do not own a smartphone, you may also call:

Target Park at 416-425-7275 Ext. 246

You will be able to speak to a live agent who will be able to process your payments over the telephone.

Should you have home care or medical support, don't hesitate to contact your site administrator with the date and period required to reserve parking.

Please also note that failure to register will result in the tagging and towing of your vehicle at the vehicle owner's expense.

Thank you,
CLV Group Management
